Wbro Chad Northcott

Chairman

Community Fund Committee

The East Lancashire Memorial Charity.

10th November 2017

Dear Wbro Northcott,

Your committee have, recently, very kindly granted £2000.00 for use in Proton Beam Therapy research at The Christie Hospital. May I, as the applicant to ELMC, sincerely thank you for your most generous gift.

PBT is the future for treating cancerous tumours, especially those tumours in children and young adults. Your donation will help equip our research

center, such that we can help  
improve PBT applications world-wide.

Again, I thank you and  
your committee for your generous  
grant both on behalf of the hospital  
and also on a personal level.

Yours very sincerely and fraternally

Chi Lyson
